

## Managed Projects

### **INTEGRA AES - ROME, ITALY**

*Architectural & Engineering services*

*March 2019 - Present*

Works Direction office for "Civil works for renovation of Auxiliary Services and Protection, Command and Control System of 380-132 kW electrical station" in Fano, Italy (€ 2M project).

Client: **Terna**

Works Direction office for "Preparatory works for the installation of a Synchronous Compensator System of 380-132 kW electrical station" in Fano, Italy (€ 1M project).

Client: **Terna**

Works Direction office and Health & Safety Coordination support for "Conservative restoration works of Sistine hallways in Santo Spirito in Saxia monumental complex" in Rome, Italy (€ 4M project).

Client: **ASL Roma1**

Quality Management for "Renovation of radio navigation system (DVOR-DME) for Mario Mameli airport" in Cagliari, Italy (tens of M € overall project).

Client: **ENAV**

Quality Management for "Design Services for CCTV Control Centre and Associated Works" in Kabul, Afghanistan (€ 8M project).

Client: **UNOPS**

Quality Management for "Technical review of topographic/geotechnical survey and design of grain steel silo project" in Herat, Kandahar and Kabul provinces, Afghanistan (€ 20M overall project).

Client: **World Food Programme (WFP)**

Collaboration for Detailed Design of structures for "Design of the new WFP country office building in the UNOCA compound" in Kabul, Afghanistan (€ 3M project).

Client: **World Food Programme (WFP)**

Collaboration for Detailed Design of force protection solutions and structures for "Design Services for a Blast Resistant Boundary Wall for an Office Building" in Kabul, Afghanistan (€ 3M project).

Client: **UNOPS**

Collaboration for Feasibility Study and Preliminary Design of force protection solutions and structures for "Design of upgrades for new office facility" in Damascus, Syria (€ 3M project).

Client: **World Food Programme (WFP)**

**SOMMA INTERNATIONAL - ROME, ITALY***Design of Engineering devices**October 2018 - February 2019*

Preliminary and Executive design of elastic restraint devices for “Seismic retrofit of Setta viaduct of A1 highway” in Monzuno, Italy.

Client: **Pavimental**

Collaboration for Preliminary and Executive design of shock transmitter units and Quality Assurance of pot bearings for “Seismic retrofit of Devlet Bahçeli Bridge” in Adana, Turkey.

Client: **Vekkon**

Quality Control of expansion joints for several viaducts of A3 highway in Campania region, Italy.

Client: **Europa Strade**

Preliminary and Executive design of hysteretic bracing frames for “Seismic retrofit of K building of Angelini ACRAF industrial factory” in Ancona, Italy.

Client: **Saico**

Quality Control of elastomeric isolators for “Reinforcement of S. Laura viaduct of Rotondella-Sinnica route” in Matera, Italy.

Client: **RO.MAL.COS**

Preliminary and Executive design of elastic restraint devices and collaboration for Preliminary and Executive design of fluid-viscous dampers and shock transmitter units for “Reinforcement of viaducts from km-3 to km-38 of SS650 highway” in Chiauci, Italy.

Client: **Delta Costruzioni**

Preliminary and Executive design and Works Direction assistance for site inspection, installation and setup of fluid-viscous dampers, hysteretic bracing frames and elastic restraint devices for “Seismic retrofit of Minganti shopping mall” in Bologna, Italy.

Client: **Cora Banche**

Preliminary and Executive design of elastic restraint devices for “Seismic retrofit of km-145 viaduct of SS4 highway” in Pescara del Tronto, Italy.

Client: **Tecnologie Lavori Stradali (TLS)**

Quality Control of elastomeric bearings for “Construction of Posorja Deepwater Port” in Guayaquil, Ecuador.

Client: **Cimexport**

Collaboration for Preliminary and Executive design of pot bearings for “Reinforcement of Brindisi II viaduct of SS407 highway” in Vaglio, Italy.

Client: **Gielle Costruzioni**

Preliminary design of elastomeric bearings for a supply in Lisbon, Portugal.

Client: **Cortartec**

**INTERPRO ENGINEERING CONSULTANTS - ROME, ITALY***Architectural & Engineering services**April 2018 - June 2018*

FEM modeling and numerical analysis of structural interventions for “Seismic retrofit of Minganti shopping mall” in Bologna, Italy.

Client: **Cora Banche**

Case scenarios modeling, impact assessment and cost-benefit analysis implementation and presentation for the seminar “Alternative intervention technologies on reinforced concrete buildings and choice criteria”.

Client: **Teramo’s Council of Engineers**

**PRIMUS 2000 - ROME, ITALY***Building construction**February 2018 - April 2018*

Works Direction assistance for “Urban requalification project of Marymount rural properties” in Rome, Italy (€ 9M project).

Client: **Carlo Muratori**

Site assistance for “Construction of a polyfunctional three-storey complex” within EU funded project "Urban-La città muove le torri" for Tor Bella Monaca district requalification in Rome, Italy (€ 7.5M project).

Client: **Comune di Roma**

Site assistance for “Demolition and reconstruction of a clothing store” in Cura di Vetralla, Italy (€ 1M project).

Client: **Bellettini**
